

LONG LIVE THE REVOLUTION!

QUICKER
EASIER
MORE EFFICIENT!

compriband REVOLUTION

COMPRIBAND REVOLUTION: SAVES TIME, KEEPS ITS SHAPE FOR HOURS AND REDUCES WASTE.

The COMPRIBAND REVOLUTION offers new unique product benefits: COMPRIBAND REVOLUTION has no peel-off strips, which not only saves time during assembly, but also reduces waste. The shape stability ensures that opened rolls remain usable for many hours. The unique expansion protection guarantees maximum sealing performance with problem-free installation. Quicker, easier and more efficient, the COMPRIBAND REVOLUTION is changing the world of sealing strips.

30% time saving
during assembly.

Reduced waste
with no peel-off strips.

Long-term usability
Roll can be used for many hours, as it
doesn't expand right away.

Easy handling
Roll retains its shape after opening
and doesn't fall apart.

COMPRIBAND. THE ORIGINAL SINCE 1963.

The production of compressed foams started in Traun/Austria 1963. At this time the company **compriband** was a pioneer and introduced this new development of sealants to Austria. **compriband** was immediately successful, hence, an international conglomerate was established with affiliated companies and production sites on all continents. Today the original product **compriband** together with many innovative products

is used not only by the civil-/structural-engineering, but also by all industries. The product range comprises a huge variety of sealants. The company **compriband** is well known as specialist regarding sealants at civil-/ structural and mechanical engineering industry: all kinds and materials of sealants are supplied, whereas we are very flexible in responding to the customer's needs on an individual basis.
